

Pennsylvania Hospice Network

We are pleased to make available to you a dynamic educational tool. For over a year, we've been working with four hospice programs and a video producer to develop an ["Introduction To Hospice"](#) video. Using photographs submitted by the hospices and a professional narrator we have recently completed an 8-minute *Hospice 101* video.

The video can be personalized for your hospice.

- Your hospice name can be inserted in the beginning of the program both by the narrator and as a title.
- Your hospice name & phone number can be inserted in the ending of the program by the narrator and as a title.
- If you like, you may provide photos of your staff to be inserted into the body of the video.

The video is a perfect educational tool to use with:

- Patients and Families
- Community & Church Groups
- Volunteer Training
- Nurses, Social Workers, Clergy & Care Management
- Hospital & Nursing Home Administrators and Staff
- Hospital "In-House" TV Information Channel
- Physicians & Residents

The video is cost-effective:

- Please call for details regarding pricing.
This includes:
 - Customizing the opening and closing
 - Inserting up to 25 photos of your staff (optional & at no extra cost)
 - 10 VHS copies of your final video.

The video was enthusiastically received when it was previewed at the Pennsylvania Hospice Network's annual conference in May. Four other state organizations have already requested demo copies. Orders are being filled on a first come basis.

Demo tapes are available upon request
